PASADENA, CALIF.

P. O. Box 56, Lamanda Park, Calif.

Panama Rhubarb

Wagner's Panama Rhubarb is at the present absolutely the BEST you can buy or offer YOUR TRADE in the way of a winter producing rhubarb. Don't fail to list it and recommend it, and at prices quoted a very nice profit can be made. On any large orders or prospects turned over to us, if sold, we will protect you to the fullest extent.

Wagner's Purple Raspberry

It is the only raspberry of a purple or black cap nature that is a success in Southern California and will produce the largest crop of any raspberry known and finds a ready market at all times.

Wagner's Rose Dewberry

This is the earliest of any Dewberry or Blackberry to be found, producing an abundant crop which starts to ripen in March, at a time when berries are worth in the neighborhood of 20 to 25 cents a box net to the grower and bearing over a period until the other blackberries come into the market. You cannot recommend this berry too highly to your trade for either commercial or home use.
